ABOUT ME

Professional web developer with a strong passion for 3D, web technologies, and IT related topics. Holding a Technician Superior degree in Web Development and Multimedia, I have a solid foundation in front-end development and adapt quickly to new technologies. I work well with people and perform effectively under stress, thriving in dynamic environments where creativity and technical expertise come together. Always eager to expand my skills, I am looking for new opportunities to contribute and grow in the ever-evolving tech industry.

PROFESSIONAL EXPERIENCE

Web Developer, Designer & Multimedia Artist

Freelance | 2022 – Present | Self-Employed

- Develop and maintain web applications, focusing primarily on front-end technologies with some back-end experience.
- Design and implement user-friendly interfaces with a strong emphasis on UI/UX.
- Work with clients to understand their needs and propose customized digital solutions.
- Create 3D elements for web projects using Blender, 3ds Max, Spline, and modern tools.
- Produce and edit multimedia content using Adobe Creative Suite (Photoshop, Illustrator, Premiere Pro, After Effects, etc.).
- Ensure websites and multimedia projects are responsive, optimized, and accessible across all devices.
- Manage hosting, domains, and basic server configurations for project deployment.
- Collaborate with designers, marketers, and other developers to bring projects to life.
- Work efficiently under pressure and tight deadlines, delivering high-quality results.
- Continuously learn and adapt to industry trends and new technologies.
- Provide technical support and troubleshoot issues to ensure smooth functionality.
